Forecast for Thursday 17 Feb 2022

Weather: Overnight snow giving way to sunny intervals and scattered snow showers on Thursday. Showers will be most frequent over western areas with the odd heavier one during the morning. Showers becoming fewer and lighter in the afternoon. Driest, brightest weather will be over northern Cairngorms.

Chance of cloud-free hill tops above 800m: 60% best in northeast

Low cloud and visibility: Very good between the showers with occasional cloud cover about 700m. Brief deteriorations to very poor visibility, especially in west of area as showers pass by with clouds lowering 500m.

Met Office Aberdeen Meteorologist's View

Very difficult walking conditions with gales and temperatures well below freezing over higher ridges/summits.

Forecast for Friday 18 Feb 2022

Weather: Cloudy with outbreaks of snow, persistent and heavy during morning, especially south of area. Blizzard conditions likely for a time. Drier, brighter weather in far north of area will extend south to all parts during afternoon.

Maximum wind: Easterly winds, average speeds of 40 to 50mph, then backing northerly during afternoon and winds easing a little.

Chance of cloud-free hill tops above 800m: Little chance during morning, improving 60% from north during afternoon.

Low cloud and visibility: Very poor for many ranges in the morning with whiteout conditions. Depending in how far north the snow extends, there may be good visibility in north of area. This will extend south to all areas during the day with clouds lifting and breaking up.

Temperature: **Glens:** Minus 1 Celsius rising to plus 2 Celsius.
At 800m: Minus 4 Celsius
Freezing level: 200m
